INDIAN ADAPTATION

Shri. Piyush Goyal

Hon'ble Minister of Commerce &
Industry, CA, F&PD and Textiles

WIPO IP Diagnostics – Indian Adaptation is a collaborative effort of WIPO and the Government of India, executed through the Office of the Controller General of Patents, Designs and Trademarks (CGPDTM). The Indian Adaptation of the WIPO IP Diagnostics presents the subject in the Indian Context to empower our SMEs and MSMEs to self assess their IP Assets prior to seeking professional consultation. In a few months, this user-friendly tool will be available in several Indian languages. The success of this project now paves the way for many more such collaborations, and I am confident that India will take a leadership role in the field of IPR in the Indian subcontinent

Mr. Daren Tang

Director General, WIPO

WIPO IP Diagnostics is a software-based tool that enables a small business to undertake the self-assessment of its intellectual property (IP) aspects. WIPO and the Government of India through the Office of the Controller General of Patents, Designs and Trade Marks engaged in an intense collaboration to adapt this tool to the Indian legal and procedural context. The tool generates reports based on targeted questions related to Intellectual Property Rights. WIPO IP Diagnostics – Indian Adaptation was developed in six months through intense working of a team from WIPO & the O/o CGPDTM in India. This tool will soon be available in various Indian Languages which will be accessible to millions of stakeholders.
